**select 2019**

RONA a.s. is a Slovak drinking glass manufacturer, distributor and retailer of utility glassware for households and related services.

The company is one of the world's leading manufacturers producing a high quality unleaded glassware, known as crystal glass. 96% of production is exported and is available in more than 80 countries worldwide. The yearly production of the company exceeds 60 million pieces, that's why RONA, a.s. is the largest utility glass manufacturer in Central Europe. RONA's business activities focus on the manufacture, distribution and sale of glass products and goods – utility glass for households, the gastronomy business, aerospace, and ship catering.

## **RONA, a. s.**

### **Our company at present**

Currently RONA is a company with strong export position, qualified staff and cutting edge technology. One of the world´s leading and largest manufacturers of non-lead household crystalware. Machine made stemware and drinkware portfolio represents core position in the company´s offer and assortment. Total sales revenue has been growing steadily in the past several years.

### **Company´s main vision and strategy**

Development of long term business partnership & customer oriented service remains our top priority.

### **Environmental support and corporate social responsibility**

Company with socially – responsible, sustainable and environmentally friendly business practices.

## **TECHNOLOGY**

### **Hand glass blowing**

#### **Traditional craft**

Finest product exquisitely mouth blown and handcrafted by RONA glassmasters, in Western Slovakia. Flawless clear glass made entirely by skilled master craftsmen. Each handmade item is an unique masterpiece that captures the mood and a memory to be treated with high respect. Our handmade glassware is crafted by glassmasters with decades of experience and passion for their work - family tradition which is passed in this area through the generations for over 125 years.

## **Stemware technique**

RONA will please mainly those customers, who love and admire fine handmade glassware. Appreciate our handmade stemware and finest degustation glass collections crafted by the so called „thin - walled pulled stemware technique“. Glass designed for especially those who like to entertain their guests at home and modernize table settings with unique mouth blown glass pieces.

## **Machine glass blowing**

### **Pulled stem**

In 2001 RONA introduced, as the first company in the world, technology of the so called “pulled stem” into the blow - blow process. This process creates a monolithic product from the original two - piece process, and it significantly enhances its mechanical resistance and thus durability. RONA nowadays owns automatic technology processes which simulate handmade production and create products of high quality. In addition RONA has low tooling costs for pulled stem technology and large portfolio of ready molds.

### **Basic principles**

Qualified staff members, right motivation and managing the demanding technologies are the basic principles of RONA success story recently. It does not concern only application of modern processes for glass making, but also regular improvements of all phases of the production processes with the aim to achieve the best execution of the finished products. At the same time RONA ´s production complies with the EU environmental legislation.
