In 1856, Giuseppe Sambonet, a Fine Arts graduate and the son of a nobleman from Vercelli, obtained his warrant as Master Goldsmith and established the company, Giuseppe Sambonet, depositing his seal bearing the initials "GS" at the Turin mint.

At the beginning of the twentieth century his company was the official purveyor to many nobles, including the Duchess of Genoa and the Count of Turin.

Always in step with the times, Sambonet has stood out for its progressive spirit in the production field. It is the first in Italy to have a system capable to add to a massive silverware the electroplating process.

Already by 1938, Sambonet started developing sophisticated industrial technologies to produce stainless steel, making its way to the silver plating process.

In 1947, it started producing stainless steel knives and blades using its own technology. It conquered the international market in 1956, by being chosen – among 53 competitors – to supply the Cairo Hilton Hotel with a hollowware line that is still in its collection today. This marked the beginning of the company's great tradition of supplying world-class hotels and restaurants.

Starting from the Sixties, Sambonet began a series of collaborations that would have led to collections that affirm and spread the company's focus on design.

Roberto Sambonet, in particular, created collections of primary importance, such as the "Pesciera", the "Center line" and "Linea 50" trays that can be admired at the MoMA in New York.

From Compasso d'Oro ADI obtained in 1994 with Hannah flatware to Good Design and Wallpaper Design Award for Gio Ponti collections, and Good Design of Sphera coffee line, there are a lot of projects that shine in the international panorama design.

From 1997 the acquisition of the brand by Paderno has added professional kitchen tools to the Sambonet's portfolio.

Nel 1856 Giuseppe Sambonet, figlio di un nobile di Vercelli, ha ottenuto – dopo il diploma di Belle Arti – il brevetto di Maestro Orefice e ha costituito la ditta Giuseppe Sambonet, depositando presso la zecca di Torino il punzone con le iniziali "GS". Agli inizi del Novecento la società da lui fondata è stata fornitrice ufficiale di molti nobili, tra cui la Duchessa di Genova ed il Conte di Torino.

Al passo con i tempi in ogni epoca, Sambonet si è distinta per lo spirito evolutivo della propria produzione realizzando, per prima in Italia, un impianto capace di affiancare all'argenteria massiccia quella galvanica.

Già dal 1938, infatti, ha iniziato a mettere a punto sofisticate tecnologie industriali di lavorazione dell'acciaio inossidabile, arrivando all'argentatura dello stesso.

Nel 1947 ha inoltre intrapreso, con tecnologia propria, la produzione di coltelli e lame in acciaio inox. La conquista del mercato internazionale risale al 1956, quando si è aggiudicata – prima su 53 concorrenti – la commessa per l'Hotel Hilton al Cairo, con una linea di vasellame ancora oggi in collezione.

Ha inizio così la grande tradizione di forniture per alberghi e ristoranti stellati di tutto il mondo. A partire dagli anni '60, Sambonet ha avviato un percorso di collaborazioni che avrebbe portato alla nascita di collezioni orientate al design. Roberto Sambonet, in particolare, ha creato collezioni di primaria importanza, come la "Pesciera", il "Center line" e i vassoi "Linea 50", oggi in collezione al MoMA di New York.

Dal Compasso d'Oro ADI ottenuto nel 1994 con la posata Hannah al Good Design e al Wallpaper Design Award per le linee Gio Ponti, passando per il Good Design assegnato a Sphera Holloware, molti sono i progetti che si distinguono nel panorama internazionale del design.

Dal 1997 il brand è stato acquisito da Paderno che, alla sua produzione, ha unito articoli per la cucina professionale.

The market trends of the last years focused their attention on the decorative landscape, both in design and hospitality sector. Sambonet, as a key player in the market, has developed new processing techniques and enriched its flatware collections with precious finishes, in order to offer a widest range of choice and customization possibilities.

Diamond, Vintage, Antique and PVD are just some of the possibilities that, thanks to the latest generation machines and organization's know-how, can generate exclusive product lines.

L'attenzione alla dimensione decorativa, cui il mercato del design e dell'ospitalità dedica ampio spazio, coincide con lo sviluppo da parte di Sambonet di nuove tecniche da applicare alle sue collezioni. Il brand arricchisce costantemente così la sua gamma di posateria con preziose finiture per offrire la più ampia possibilità di scelta.

Diamond, Vintage, Antique e PVD sono solo alcune delle opzioni che, tramite sofisticati macchinari di ultimissima generazione e il know-how dell'azienda, possono dar vita ad esclusive linee personalizzate.

**Sambonet's Diamond finishing is the result of the brand's savoir fair, its desire to innovate with continuous technological research and its exclusive workmanship. This special process gives the material vibrant shiny accents and, at the same time, naturally inhibits the formation of scratches, conceals the inevitable signs of wear and preserves objects brilliant and unaltered over time.**

Frutto del savoir fair, del desiderio di innovare e della continua ricerca tecnologica dell'azienda, la finitura Diamond è il risultato di una lavorazione esclusiva di Sambonet. Questo speciale processo conferisce al materiale vibranti accenti luminosi e, al contempo, inibisce naturalmente la formazione di graffi, cela gli inevitabili segni di usura e preserva gli oggetti brillanti e inalterati nel tempo.

### hard sambonet silverplating

#### MAIN CHARACTERISTICS

Silver is a noble material, with a good resistance to the most acidic and alkaline substances found in foodstuffs.

Aesthetically pleasing.

Good resistance to corrosion.

Can improve the flavour of certain food.

#### RAW MATERIALS

Purity of silver 999.5%.

Silver layer hardness up to 2 times more than traditional silver plating.

Sulphuration resistance up to 4 times more than traditional silver plating.

Alpacca flatware: copper 66%, nickel 13% and zinc 21%.

Stainless steel flatware: AISI 304.

The Sambonet silver plating process requires very strict controls over:

the thickness and the bond of the silver layer; the evenness and the brightness of the finished product.

Each piece is submitted to strict and accurate tests and inspection before final packaging.

#### MANUFACTURE

1. Blank cutting
2. Rolling operation
3. Cutting to outline
4. Pressing operation
5. Blank cutting
6. Handle pressing
7. Soldering of shells
8. Assembling and soldering of blades

#### PRODUZIONE

1. Tranciatura
2. Laminazione
3. Rifilatura
4. Coniatura
5. Tranciatura
6. Coniatura manico
7. Saldatura cocce
8. Assemblaggio e saldatura lama

#### HAUPTMERKMALE

Silber ist ein edles Material, das gegen die meisten Säuren und Alkale, die in der Nahrung zu finden sind, resistent ist.

Ansprechend geschmackvoll.

Resistent gegen Korrosion.

Kann den Geschmack mancher Speise verfeinern.

#### ROHMATERIAL

Silber (Reinheit 999.5%).

Silberbeschichtung zweimal härter als bei herkömmlicher Versilberung.

Widerstand gegen Schwefel bis zu 4 mal höher als bei herkömmlicher Versilberung.

Alpaka Besteck: Kupfer 66%, Nickel 13% und Zink 21%.

Besteck aus rostfreiem Edelstahl: AISI 304.

Der Versilberungsprozess von Sambonet unterliegt strikten Kontrollen. Es werden geprüft:

Dicke und Bindung der Silberbeschichtung; Gleichmäßigkeit und Glanz des fertigen Produkts.

Vor dem Verpackungsprozess unterliegt jedes Produkt strengen und akuraten Kontrollen.

#### CARATTERISTICHE PRINCIPALI

L'argento è un materiale nobile con una buona resistenza alle sostanze più acide e alcaline presenti negli alimenti.

Piacevole a livello estetico.

Buona resistenza alla corrosione.

Può esaltare il gusto di alcuni alimenti.

#### MATERIALI

Purezza dell'argento 999,5%.

Durezza del rivestimento d'argento fino a 2 volte superiore rispetto all'argentatura tradizionale.

Resistenza alla solforazione fino a 4 volte superiore rispetto all'argentatura tradizionale.

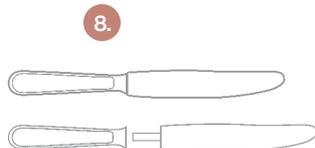

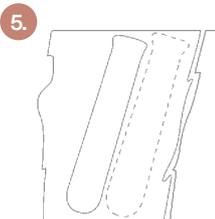

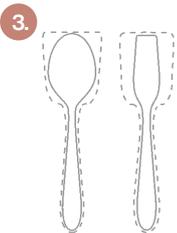

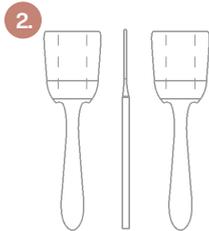

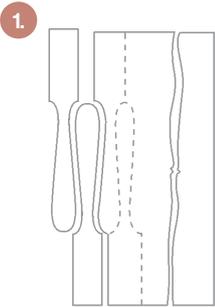

Posateria Alpacca: rame 66%, nickel 13% e zinco 21%.

Posateria acciaio inox: AISI 304.

Il processo di argentatura Sambonet richiede controlli severissimi riguardanti:

lo spessore e l'aderenza del rivestimento d'argento; l'uniformità e la lucentezza del prodotto finito.

Ogni pezzo è sottoposto a test severi e accurati e a un'ispezione attenta prima del confezionamento finale.

**CARACTÉRISTIQUES PRINCIPALES**

L'argent est un matériau noble ayant une bonne résistance aux substances les plus acides et alcalines contenues dans les produits alimentaires. Agréable esthétiquement. Bonne résistance à la corrosion. Il peut améliorer le goût de certains aliments.

**MATIÈRES PREMIÈRES**

Pureté de l'argent 999,5%.  
 Dureté du revêtement jusqu'à 2 fois supérieure à l'argenture traditionnelle.  
 Résistance à la sulfuration jusqu'à 4 fois supérieure à l'argenture traditionnelle.  
 Couverts en maillechort : cuivre 66%, nickel 13% et zinc 21%.  
 Couverts en acier inox : AISI 304.

Le procédé d'argenture Sambonet prévoit des contrôles très rigoureux concernant: l'épaisseur et l'adhérence du revêtement; l'uniformité et la brillance du produit fini.

Chaque pièce est soumise à des tests minutieux et rigoureux et à une inspection avant d'être emballée.

**CARACTERÍSTICAS PRINCIPALES**

La plata es un material noble con buena resistencia a la mayoría de las sustancias ácidas y alcalinas presentes en los alimentos. Agradable en apariencia. Buena resistencia a la corrosión. Se puede mejorar el sabor de ciertos alimentos.

**MATERIA PRIMA**

Pureza de la plata 999,5%.  
 La dureza de la plata que recubre hasta 2 veces más que las tradicionales.  
 Resistencia a la sulfuración hasta 4 veces más que las tradicionales.  
 Nickel cubiertos de plata: 66% de cobre, 13% de níquel y 21% de zinc.  
 Mangos de acero inoxidable: AISI 304.

El proceso de plateado Sambonet requiere controles estrictos en cuanto a: el espesor y la adherencia del revestimiento de plata; la uniformidad y brillo del producto acabado.

Cada pieza es sometida a prueba y la inspección precisa y cuidadosa antes del envasado final.

**We reserve the right to alter at any time the specifications stated without notice. Considering that different operations are processed manually, some slight differences between same products of different lots may be noticed. The shapes of flatware illustrated are representatives and are not to be considered as real shape.**

Le misure espresse sono indicative e soggette a variazioni senza preavviso. In considerazione del fatto che la produzione è artigianale, potrebbero rilevarsi lievi differenze tra partite diverse dello stesso prodotto. Le sagome delle posate illustrate sono puramente indicative e non si riferiscono a quelle reali.

Wir behalten uns das Recht vor, die angegebenen Spezifikationen aus technischen Gründen jederzeit zu ändern. Da verschiedene Bearbeitungsschritte handwerksmäßig ausgeführt werden, könnten leichte Abweichungen bei unterschiedlichen Warenpartien des selben Produktes auftreten. Das Profil der Besteck ist nur als Informationsskizze zu verstehen. Es stellt nicht die wirklichen Profile dar.

Nous nous réservons le droit de modifier à tout moment les spécifications techniques. Car différents cycles de production sont effectués artisanalement, on pourrait remarquer de légères différences entre différents lots du même produit.

Les silhouettes des couverts sont uniquement indicatives et elles ne se réfèrent pas à la silhouette réelle des couverts.

Nos reservamos el derecho de modificar las medidas indicadas sin aviso previo. Puesto que las diferentes fases del mecanizado se efectúan con un cuidado artesanal, podrían manifestarse pequeñas diferencias entre distintos lotes del mismo artículo. Los perfiles de los cubiertos ilustrados son meramente simbólicos y no corresponden a los perfiles reales.

# electroplated nickel-silver

The absolute purity of the silver, certification requirements of the stainless steel and nickel silver are what constitute Sambonet's quality silver production. In respect to the traditional plating, the exclusive technique HSP Hard Sambonet Silverplating applied to the products, offers longer durability and resistance to the coating.

The silver plating, done entirely by Sambonet, was developed and perfected over the years thanks to a unique automated galvanic electroplating cycle.

On an international level, the department is now distinguished for size and modernity. Always in step with the times, Sambonet has stood out for its progressive spirit in the production field. It is the first in Italy to have a system capable to add to a massive silverware the electroplating process.

Already by 1938, Sambonet started developing sophisticated industrial technologies to produce stainless steel, making its way to the silver plating process. All articles are subject to a rigid manual quality check, ensuring excellent work on all finishings and adding to their top notch esthetic design.

Sambonet's silver production is made up of AISI 304 stainless steel or nickel silver, alloy made up of 66% copper, 13% nickel and 21% zinc, embellished with pure silver.

La purezza assoluta dell'argento, i requisiti certificati dell'acciaio e dell'alpacca sono alla base della qualità della produzione argentata Sambonet. Rispetto all'argentatura tradizionale, l'esclusiva tecnica HSP Hard Sambonet Silverplating applicata ai prodotti offre maggior durezza e resistenza al rivestimento.

L'argentatura realizzata internamente è stata sviluppata e finalizzata negli anni grazie a un singolare ciclo di elettrodeposizione galvanica automatizzato.

A livello internazionale il reparto si distingue oggi per dimensioni e modernità.

Al passo con i tempi in ogni epoca, Sambonet si è distinta per lo spirito evolutivo della propria produzione realizzando, per prima in Italia, un impianto capace di affiancare all'argenteria massiccia quella galvanica.

Già dal 1938, infatti, iniziò a mettere a punto sofisticate tecnologie industriali di lavorazione dell'acciaio inossidabile, arrivando all'argentatura dello stesso.

Tutti gli articoli sono soggetti a un rigido e scrupoloso controllo qualità manuale, che ne assicura l'ottima esecuzione della finitura e che concorre alla resa estetica d'altissimo pregio degli stessi.

La produzione argentata Sambonet trae origine da acciaio inox AISI 304 o alpacca, lega costituita da rame al 66%, nickel al 13% e zinco al 21%, impreziositi con argento puro.
